Digital Business Card

Bluetooth Tracker

eylet Official Partner Program

Add NFC to your bluetooth trackers and turn them into digital business cards. Increase your profit by making your bluetooth tracker dual function tracker and digital business card. Customers can use the eylet app to set up and share their digital business card.

Simply pre-program the NFC chip with the eylet web link and each weblink is unique

Unique URL for each item

[https://eylet.com /grc /h687fg6jk](https://eylet.com/grc/h687fg6jk)

Print the QR code for the web link on the product

Enhance your product by making it dual function Bluetooth tracker + Digital Business Card
Your customer can manage their business card on the free eylet app on eylet.com/login

You can use eylet logo in packaging and sell on all marketplaces like Amazon, Aliexpress, Temu etc.
